ALS Base Hospital Pharmacies  
ALS Prehospital Care Providers

FROM: Michel Sucher, M.D., Acting Medical Director   
Bureau of Emergency Medical Services

DATE: January 15, 2004

RE: Adenosine Supply

It has come to the Bureau's attention that Adenosine may no longer be available in 6 mg/2 mL vials in some areas.

This memorandum serves as authorization for base hospital pharmacies, receiving health care institutions and independent suppliers to provide Adenosine in 6 mg/2 mL and 12 mg/4 mL prefilled syringes to ALS prehospital care providers.

Should you have any questions or concerns, please do not hesitate to contact me at (602) 364-3150.
